Yellow portion biked; Green on bus with broken bike

Biked 21.31 miles around Puerto Vallarta and took a whale boat. I did not track with GPS since it was flat and not part of the complete route.

 Day 14, December 28, 2007

Day 15, December 29, 2007

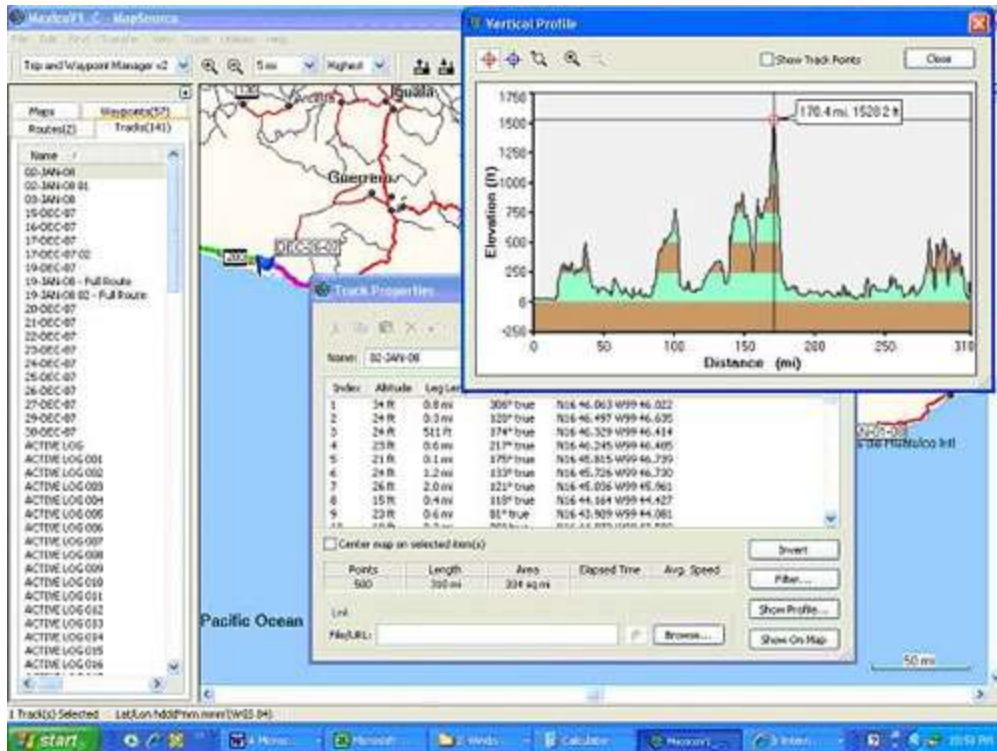

Oops turned off GPS near top of hill – the hill actually continue uphill near high point on this profile.

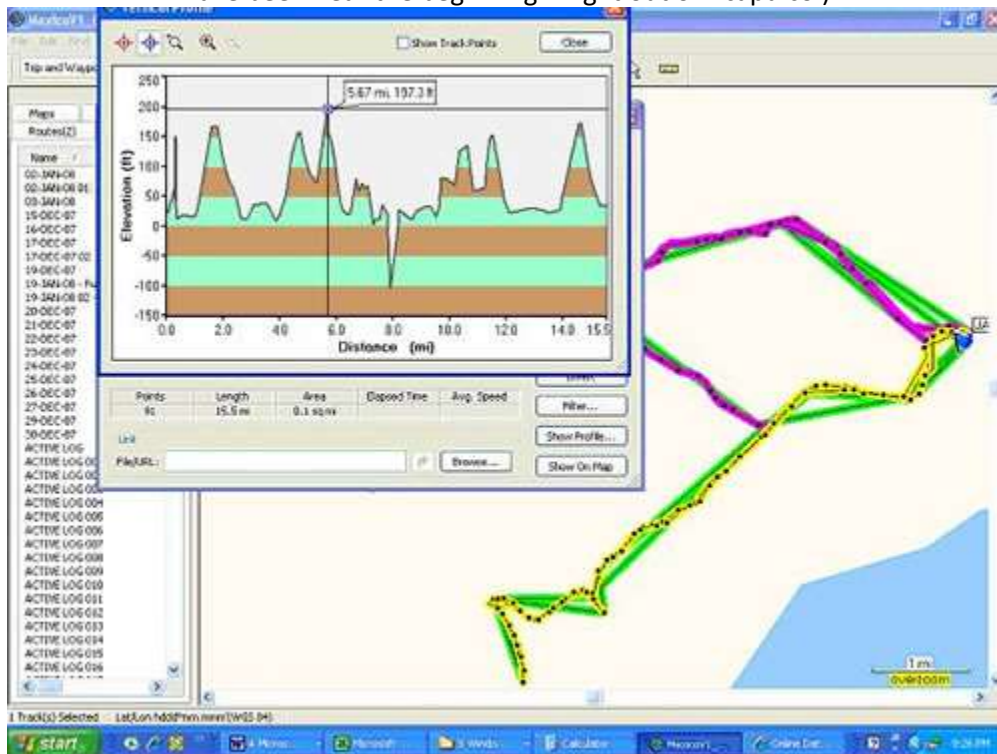

Day 16, December 30, 2007

Biked 7.4 miles around Acapulco

Day 17, December 31, 2007

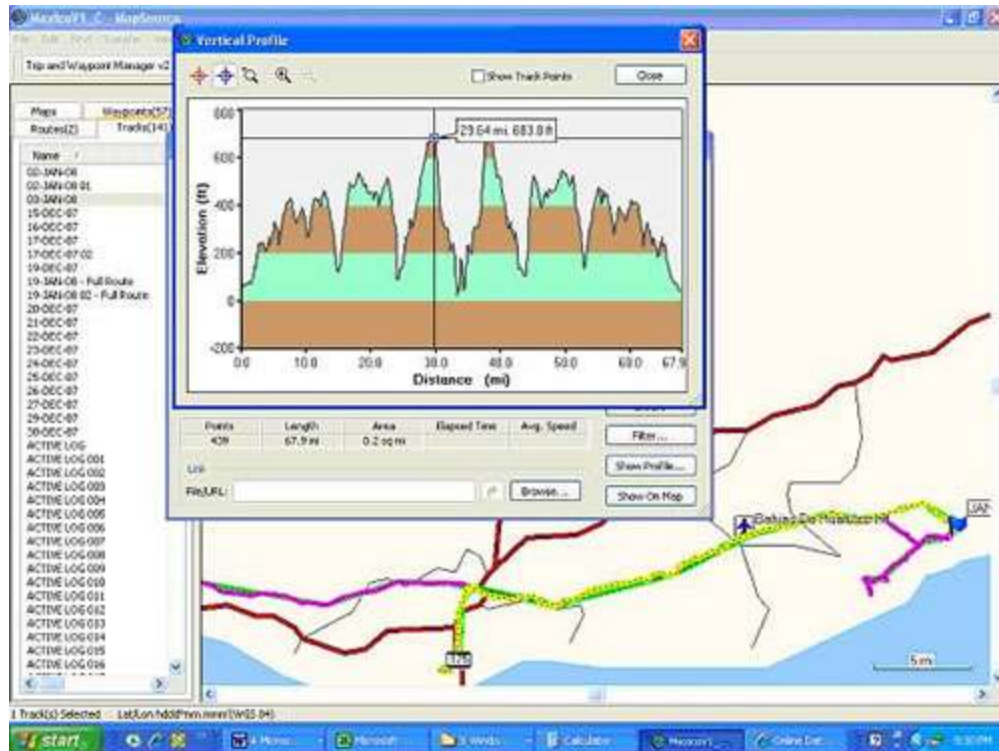

Day 18, January 01, 2008 – Miles driven in Rental car (the profile looks wrong – the high point should have been near the beginning – right out of Acapulco)

Day 19, January 02, 2008

Odometer biked miles was 17.41, I had trouble getting the exact start and stop point on my GPS and I went all the way to the beach. The GPS profile shows me at 100 feet elevation and I never went negative. The above profile is what I was able to get off my GPS, but is not 100% accurate (but very close).
