Meeting the day before the trip

WE ORGANISE A MEETING AT 11.00AM THE DAY BEFORE THE TRIP AT LUNA'S CASTLE HOSTEL IN THE OLD TOWN "CASCO VIEJO", PANAMA CITY

In this way we can brief you fully and make sure you are totally ready for the trip. This meeting is really important so please be there if you can!! It's a good chance to see Casco Viejo (old town) at the same time.

This meeting is made for you to get a full briefing from the guide in order to be fully prepared for your departure the next day, and get to know the other people of the group. Also after the briefing the remaining balance should be paid and \$30 USD for the shared 4×4 car to the port.

WHAT IF I MISS THE BRIEFING?

Read our FAQ twice! There is all the information you need to be totally prepared for the trip. In that case you will pay the remaining balance before the trip in the morning of the departure to your guide.

We strongly recommend you to attend the briefing to avoid any misunderstanding or surprises and to answer any of your questions!

Where does it start?

Our trip **starts in Carti** at the beginning of San Blas. This is where you will get on the boat and start your journey!

To get there you will need to take a jeep from Panama City. This is not our company and the cost is not included in our trip, however we can help you organize it. All you need to do is let us know where you're staying. Jeep cost is \$30 per person

Jeep transport to the departure point

BE IN CONTACT WITH US AND LET US KNOW IN ADVANCE WHERE YOU WILL STAY IN PANAMA CITY FOR YOUR PICKUP.

We help organize the group transport by Jeep to **Carti** where the trip starts. All you need to do is **let us know where you're staying**. This transport will pick you up on the morning of the trip at 5am.

Shared Jeep costs \$30 per person.

Any hostel / hotel in the area of Casco Viejo, Bella Vista, San Francisco, Vía Argentina, El Carmen, Perejil, Paitilla, Ancon and Albrook Mall would be in the route of the transportation provider.

The 3rd party transportation doesn't usually pick up from private addresses, and they might ask you to wait at a nearby supermarket, hotel/hostel or mall for pick up at 5am on the day of the trip.

There are options, so just give us the address details and we'll find you the most convenient choice for you and the 3rd party transport company.v

BE READY AT 5am IN FRONT OF THE HOTEL OR HOSTEL YOU ARE STAYING AT.

NOTE : The transport service is NOT our company and the cost of transfer to the port is not included in our trip. We are not responsible for this part of the journey.

Important Note: Late pick up or late arrival to the departing point due to no show, sleeping in or forgetting belongings at your hostel/hotel may cause extra expenses of up to \$100-200 plus losing the 1st day activities.

If you bring any delicate valuables (money, docs, etc.), any breakable item, shock sensitive electronic devices, computers/laptops/mobile phones/tablets, etc. **we recommend carrying them with you in your daily backpack inside the 4x4 car** to avoid any shock damage or loss.

How do I prepare

Read thoroughly through ALL THE FAQ! Once when you book and once just before the trip.

Baggage allowance & extra baggage

Baggage allowance

Each guest has a baggage allowance of one large backpack and one small carry on bag. Extra: If you would like to take something extra please check with us before booking to confirm that we have space.

Costs:

Extra backpack	\$30
Surfboard	\$30
Kite board	\$30
Bicycle	\$100

Note: The extra charge covers the extra weight on the boat and does not cover damages. You should take care of your gear on the boat. If something breaks it's your responsibility.

Surfboards: We suggest you sit at the front of the boat and watch your board. Take charge of taking the board on and off the boat yourself and storing it somewhere it won't get damaged for the night.

Packing and preparing your bags

It's very important you follow these suggestions to prepare and protect your belongings during the trip.

Separate your things.

Put what you will use for the trip in your small bag. This is the bag you will keep with you for the trip. Your big bag with everything you don't need for the trip will be stored and may be carried separately. You will not have access to it for the entire trip until the end. Think carefully about what you need to bring.

For your **electronics and important documents** you **MUST** seal them in sealed plastic bags then tape them up so they are **100% WATERPROOF**. In the unlikely event of water entering your bag we cannot be held responsible for damage to electronic equipment or personal items.

Do this the night before. That way when we get to the boat we can store the bags and supplies straight away and vamos as soon as possible.

Passport: We suggest storing it in a sealed plastic bag (ziplock) and carry it in your hand bag or small bag.

Some ideas for packing:

- **Change of Clothes**
- **Swim suit**
- **Towel**
- **Torch**
- **Camera (fully charged)**
- **Warm clothes or a sheet to sleep in. Can be chilly in a hammock.**
- **A warm jumper/sweater/light jacket.**
- **Some dollars to buy drinks, coconuts, kuna art, etc.**
- **Sun Block/after sun.**
- **Water**
- **Snacks**
- **3 copies of your passport**
- **Toilet paper**
- **Cigarettes**
- **Mosquito repellent**
- **Good spirit – and some good spirits!!**

NOTE : Remember that you will be traveling on a boat with a good probability of getting water splash in the boat. We strongly recommend you get a travel-insurance policy which covers you for loss or damage to your personal belongings, as we cannot be responsible for them.

Where can I get Colombian Pesos

You can exchange Dollars to Pesos at Albrook Mall, in Casco Viejo, at any Western Union, at any bank or any money exchange house.

Why is the remaining trip balance paid in cash

This adventure is run through a very remote part of the world. Part of what sets us aside from other routes & tours through San Blas is how closely we work with the communities and how much of our tour is provided by the locals, including our crew, boats, accommodation, food, and the beautiful places we spend time at each day. It is necessary for us to receive balances after the deposit in cash in order to pay for each service provided by the Kuna.

Travel with us & support the local community

We work very closely with the Kuna on all aspects of the trip and most of the money from your fare stays in San Blas, distributed among the local people we work with and the different communities we visit along the way.

San Blas Adventures donates to various projects in the Kuna Yala and in Capurgana. From the beginning of our Adventure you'll see that there are many ways in which local people along our route can benefit and share the opportunities that tourism brings.

<http://volunteersanblas.com/>

RECYCLING & IN KUNA YALA: Waste distribution and recycling are major issues in Kuna Yala that the Kunas have never dealt with.

They have not had access to the information and education on how to deal with such issues, which means unfortunately some parts of some islands are littered with plastic, so we have decided to start doing something about it!

Classes and education will be offered on the benefits of recycling for the land, sea, and animals. A rescue project is taking place for the Leatherback turtles who land in Armila to lay their eggs every year.

This is a huge project and it's one foot in front of the other, but we are dedicated to growing our efforts with the goal of a garbage free San Blas, and education in the villages so it stays that way for generations to come.

We have close ties with the communities of San Blas and want to give back for all the knowledge, beauty, friendships, and love they have shared with us!

IN CAPURGANNA : We are involved in various projects including education and sports for children, caring for the elderly, and general positive development in the village.

We want to say thanks to you all for choosing to travel with us and making these things possible!

Team spirit

Nothing is expected of you except to enjoy yourself, have a good time, and wash your plate. However, if you're the kind of person who likes to get involved you're more than welcome to help us out during the trip, chopping veggies for example, or with whatever else is going on.

You'll be sharing this journey with other travelers, as well as the guides and Kunas from our team and the islands along the way. It's important to make an effort to be friendly and respectful, be kind, help each other, and always try and keep a positive team spirit. Also, keep in mind that anything can happen so it's important to be patient sometimes and keep a positive attitude. No matter what's happening it's all a great adventure!

Keep this mind set and it will make the experience more enjoyable for yourself and everyone else on the trip.

Seasickness and Travel Times

SAN BLAS ADVENTURES IS A FAST BOAT ALTERNATIVE TO SAILING

Seasickness not likely: Because our boats go faster and don't sway so much from side to side it's very unlikely you'll get seasick. Of course on rare occasions, and to people who are very sensitive it can happen, but it's extremely rare. And if it does

happen the good news is the boat ride is short so you'll be off on the next island soon enough.

Note: we are only on the boat 1-3 hours per day and always within the sight of shore.

Sea is rougher between Dec and Apr: Check FAQ/Weather

If you know you are prone to seasickness we recommend you bring some seasickness pills.

Rules & respect for the Kuna

Our relationship and your experience

After many years of operating in San Blas we have developed very close relationships with the local indigenous community, the Kuna. Being able to share this experience with you, and share you with them, is an integral part of our trip and what really sets us apart.

Throughout the trip you will be meeting locals who work with us, communities that we work closely with, and villages where we buy supplies like fish/seafood, rums, & ice, etc. We highly respect the communities in our route and we plan our trips so we don't exhaust the villages with our visit.

Most of our crew are from these villages and we are welcome there.

As an individual you are welcome to go around villages to talk with and meet the locals.

Photos:

Photos are a big deal in Kuna Yala, some will ask you 1\$ for taking a photo of them, some will completely refuse. In all cases you will need to start a conversation with them first and then ask for a photo.

Kuna children will go after your camera and make your photography a dream! However, you will still need to ask their permission and if their mother or father is around, you will need to ask permission from them.

Coconuts:

The San Blas islands are coconut plantations planted by the Kuna. Every coconut, no matter where you find it, has an owner whom you need to find and pay before going crazy banging it on rocks and whatever you can find to try and get it open. Kunas have machetes and they will open it for you.

Village Rules:

- Always wear a shirt in villages,
- Ask before taking pictures. Sometimes the Kuna may charge you 1\$ for picture.

Please don't offer alcohol to the Kunas, particularly rum, the reaction is not fun for anyone!

You can bring things for the Kuna kids. Some suggestions are: books, pens, volleyball, basketball, football, any game.... It's better to give these kinds of things than sweets.

Drinks & Drinking

Drinks are not included

Water: We recommend around 1 gallon per person before the trip as you can also buy water on some of the islands

Cold beers, sodas and coconuts: can be purchased from most of the islands during the trip with a cost of \$1-2 depending on the island.

Rum: A popular drink among guests, should be bought before the trip as it is usually not available on the islands.

Avoid drinking too much alcohol. Of course you will want to enjoy a few beers and sample some of the local rum around the fire at night, however don't make yourself a liability. Nobody wants to have to look after the drunk guy. Tropical hangovers are a nightmare and you don't want to miss out on the day activities if you are trying to recover from the night before! Also, if you hurt yourself you're a long way from the nearest hospital and there are no ambulances. (there are some clinics in some villages)

Drinking in the indigenous villages is not permitted by the Kuna laws, for that we have our private social areas to socialize and have a drink all together!

Be understanding and respectful of others:

In a San Blas adventures group most of the people are well traveled, well mannered and well informed. It is a holiday break so they are allowed to party and socialize.. if you want to join - you can, if not then there is plenty of space to chill, explore or enjoy the islands your way.

As a free flowing trip, we want people to enjoy themselves but we are not shy to let you know if you get a little too excited with the drinks. There's generally a good sociable atmosphere when travelers get together on a boat roaming paradise islands and we encourage people to enjoy the trip their way as long as they respect other people who want to do other things too. It's also important to respect the kuna people living on the islands and the ones working with us or part of the crew. We want our groups to be socially aware, respect each other, the crew and the locals.

Kuna and alcohol:

Unfortunately we have to keep mentioning this and double reinforcing its importance. **DO NOT GIVE KUNA ALCOHOL** Kuna are an indigenous people and like many asians they don't have the enzymes to digest and filter alcohol properly. What seems funny can quickly turn into a really annoying or potentially dangerous situation. It's not safe to be completely intoxicated on a small island. Please be respectful of this!

Food

All meals are included

from lunch the first day to lunch the last day of the journey. 10 meals in total.

Snacks are not included.

Dietary requirements: Please inform us of any dietary requirements. If you are vegetarian, vegan or have allergies etc.

Our menu is based on traditional caribbean cooking with a gringo touch, using fresh seafood, lobsters when available, chicken, vegetables, fruits, rice... The seafood in San Blas is first class and we serve lots of it!

We buy our fish directly from the fisherman on some islands or the locals prepare delicious meals for us. We stock up on fresh fruits and vegetables, vegetarians and vegans will enjoy healthy dishes. The crew usually serves fruits between the meals or after the meals.

We are proud of our food, our teams and the Kunas cook with passion. Sometimes we do not cook per plate but in one big batch caribbean style so it will be hard to separate ingredients just to cater for those who do not like garlic or onions etc. Remember that you are on remote islands! You may have to make a small exception sometimes.

We always work to improve and do our best to satisfy our guests!

Sleeping arrangement

Each night you will have the luxury of sleeping on a new island!

Since each day will be on a new island, you'll get to experience sleeping in a mixture of cabana beach islands and Kuna village islands. Some are on their own private island, within a traditional village or on a secluded beach.

Hammocks/beds

Accommodations are provided by the Kuna people and generally consist of dorm style rooms with hammocks. Some islands have some beds available.

Couples

Where possible we give couples a room of their own, and the opportunity to sleep together, however sometimes due to availability you couple will have to be in a shared room.

Bugs

The islands we stay on are mostly bug free but it's a good idea to bring some repellent anyway. In the rainy season there may be sandflies on some islands. Some kind of oil, like baby oil or coconut oil are the best defence against sandflies and no-seems (chitras).

There will be **no sleeping on board** as we are a speedboat.

We recommend that you bring **earplugs** if you are a light sleeper.

Keep in mind: This is an adventure!! Amenities are rustic with a charm

Toilets & Showers

Toilet: There is no toilet on the boat

Depending on the islands, we have a mix of plumbing toilets and indigenous Kuna toilet, they are rustic toilets build above the sea, you will have the experience of a lifetime using this ancestral way to do your necessities! We advise you not to throw toilet paper in the sea but to put it in the trash.

Showers:

There are fresh water showers on the islands. Water either comes from a well or water drums filled from a river on the mainland.

No toilet or shower!

Some islands we stop at during the day have no toilet, shower or running water.. Just coconut trees. You might have to improvise...

What is Not included?

- PERFECT WEATHER & SEA CONDITION - NO GUARANTEES
- ACCOMMODATION BEFORE & AFTER THE TRIP
- ALL TRANSPORTS BEFORE AND AFTER THE TRIP
- ALCOHOL, DRINKS, WATER
- SNACKS BETWEEN THE MEALS
- FINS (snorkel and mask are included)
- TOWELS

Electricity & Charging Batteries

There are often no plugs or electricity on the Islands. Sometimes you will be able to charge batteries on some of the nights if you are lucky and find a solar panel with a plug!

We recommend that you fully charge your batteries the night before the trip.

Remember to pack a Flashlight or Head-torch.

Weather

March/April – November/December

Generally known as the rainy season it's actually a very comfortable time of year to travel in San Blas. The seas are calm and when it rains it generally only lasts a short time and we generally always have some sunshine.

Our trip depends on the weather so keep in mind that the itinerary can change at any time

December – March/April

For these months there is a strong wind almost constantly from the North-East. In general the sea is rougher and sometimes we may have to delay.

On the upside it is the Caribbean summer and because we travel along the coast a lot of our trip is mostly protected by islands and reefs.

Read more about our Summer Time & High season

Remember: We can't control the weather, but we can control our attitude!

Summertime: December to April

Summertime... and the livin' is breezy!

“Summer” in San Blas is from December to April and means blue skies, hot days and strong winds. Due to weather conditions at this time of year there are a few things we do differently that you need to take into consideration before booking with us.

Weather : During these months there is a strong wind that comes almost constantly from the north-east. This means that the sea can be rough, sometimes too rough to travel in. For the same reason, at this time of year, few sailboats travel to Cartagena as the open ocean stretch can be too rough, particularly outside Cartagena. Our trip is along the coast, mostly within the protection of islands and reefs, however there are sections where we are exposed to rough seas. We operate at this time of year with extreme caution. Safety always comes first and it's possible we may delay or cancel a trip, before or during the trip. We will always keep you up to date and informed on sea conditions and possibility of delays or cancelation.

Differences to be aware of:

Voyages: Due to the winds our travel times can take longer and you'll get wet.

Delays and flights:

It's important that you do not have a flight or anything pressing at the other end. The trip could be delayed before it begins or we may have to wait a day or more on one of the islands to let weather pass (this can be a great extra experience, if you're not in a rush,

more time on the islands!). The longest we've been delayed in the past is 4 days. Deposit is refundable in the case of delay.

Extra costs: if we do get stuck on the islands there will be an extra cost of \$30 a day for food and accommodation. We suggest you bring around \$150 extra money on top of the recommended amount, in case there are delays.

Book early: Being high season and windy season together there are many travelers and few boats so get in sooner rather than later!!

To give you an idea of the frequency of delays, in general we are delayed 2 – 6 times throughout the entire high season and delays in the past have been anywhere from 1-4 days.

Cancellation: (This is extremely rare, however we have to have a policy)

If the trip is cancelled due to weather before the trip we will refund your deposit.

In the very unlikely event that the trip is cancelled during the trip and we have to return we will refund \$80 per day for the days of the trip remaining and provide transport back to the start point.

Once the trip has started there are NO REFUNDS

If you decide to cancel/leave the trip, during the trip, because of a delay or any other reason there is no refund and you will need to pay for boat transport back to the start/end point.

We will warn you before the trip of the likelihood of delay. If you're worried about a flight after the trip it's better to cancel and take another transportation.

Who is our trip for?

MEET PEOPLE FROM AROUND THE WORLD!

We encourage a wide mix of ages within the group, from old time adventurers to short break professionals to first time travelers.

Every combination of people makes a unique, one off, atmosphere onboard. There is no upper age limit. All you need is a normal physical condition to get on and off the boat, and an adventurous team spirit!

How big is the group?

Depending on the season, our trips leave from 8 up to 27 crew not included.

Our trip is through a very remote part of the world. Part of what sets us aside from other routes & tours through San Blas is how closely we work with the communities and how much of our adventure is provided by the locals including our crew, boats, accommodation, food, and the beautiful places we spend time at each day. It is necessary for us to receive balances after deposit in cash in order to pay for each service provided by the Kuna.

Prepare for no cash machines :

Remember, there are ***NO CASH MACHINES, NO BANKS & NO ATM's***
between Necocli and Panama city, in San Blas, Capurgana & Sapzurro

We suggest taking money out a few days before the trip to avoid last minute problems. You'll be changing countries during our trip and Panama is in dollars.

In Colombia: Make sure to exchange enough dollars in a Major city before the trip

Our trip is all inclusive, except for drinks. How much money you need will depend on how much you drink and if you buy extras like Kuna art!

Delays and flights:

Delays: It's possible at any time of the year that a trip can be delayed

Dec - Apr: Is the most common time for this to happen. Check FAQ/summertime

Low season Sep - Nov:

On rare occasions in the low season we may delay a trip one or two days if there are not enough people booked.

Random events:

Sometimes in Panama, Colombia or in San Blas there are events (like a strike) that can stop everything. In this case there's nothing we can do but wait.

Refunds due to delays:

If a trip is delayed for any reason and you are no longer able to make the trip we can refund your deposit.

Flights:

We suggest you leave a few days leeway in your travel plans and particularly if booking flights after the trip. This way you'll be relaxed if something happens out of the ordinary.

If you do have a flight booked directly after the trip understand that there is always some risk you might not make it. Of course if you let us know we will do everything we can to help you get you to your flight on time.

Rebooking Policy

Rebooking/changing date:

Bookings are transferable to another date or direction free of charge (1 time) if we are notified at least 10 days before departure *subject to availability.

1st rebooking more than 10 days before the trip = Free

2nd rebooking, and any rebooking after = \$20 per person in the booking.

*This doesn't apply for health, or other emergencies with proof. In that case send us an email with the document showing why you had to rebook.

Cancellation and Refund Policy

IF YOU WISH TO CANCEL YOUR SPOT ON A TRIP SCHEDULED:

If you cancel you may be eligible for a refund depending on how many days before the trip you cancel:

More than 30 days :	FULL REFUND
8 - 30 Days (DAYS INCLUDED) :	50% REFUND
*7 Days or less :	NO REFUND

*We will not refund any deposit amount if you have cancelled less than 7 days before your scheduled departure.

Refunds will be mostly done with PayPal or through our booking online system.

IF WE CANCEL OR DELAY A TRIP :

We only cancel a trip if there is a severe weather warning or if the Marin office does not give us clearance to travel.

On rare occasions we may delay the trip a day or so if we don't have enough people to run the trip or if for some unforeseen reason we cannot leave on the day scheduled. If our trip cannot proceed on the scheduled departure date, we will reschedule in the next day/s. In that case we will let you know sending an email explaining the delay. We issue full refunds if a trip date is moved or cancelled due to weather or any other reason.

We will issue a full refund if we cancel the full trip.

If we cancel the full trip, you can also join the next departure if there is an available seat and if that works for you.

***By Booking the trip you accepted our FAQ, the terms & conditions and liability & release**

Health & Safety

All travelers must have their own health Insurance.

Having a personal insurance is not a mandatory requirement, but, we strongly recommend you to subscribe to an insurance policy to protect you.

We are an adventure company traveling in a very remote area.

We do as much as we can to avoid accidents. Our crew are trained to respond in emergency situations and look out for dangers but no matter how much we take care accidents can happen in this environment. It is still up to our travelers incentives to look after themselves and avoid mishaps.

Life jackets:

Will be provided and it's important that you wear them at all time while on the boat.

Safety in the water:

Stay in a depth and distance from the island you are totally comfortable with. Only go snorkeling with at least one other person. No swimming at night. At night you can get in the water close to the island but not swim around off the shore.

What happens in an emergency?

Some of the village islands throughout San Blas have clinics with doctors trained in western medicine. Most issues can be dealt with at these clinics. In worse cases we would have to make every effort to get an injured person to Panama City.

Allergies:

If you know you are allergic to something and could need an epi pen, please make sure you have it with you!!! This could save your life.

Do I need Travel & Health insurance?

This is not mandatory but we strongly recommend all travelers to have their own Travel & health Insurance.

Remember that you will be traveling in remote islands. We recommend travel-insurance policy that covers loss/damage/theft of personal belongings and medical insurance that covers travel and water sports. We cannot be responsible for such incidents on the trip.

*By booking you accept our terms and conditions and liability release

Property loss/damage policy

You are responsible for and must take care of your own property.

In the transport before and after the trip:

Take care of your personal stuff during the transport before and after the trip, make sure you don't forget anything inside the vans, buses or jeep you travel with. If you forget something it will be lost and almost impossible to get it back.

On the islands:

Every time before leaving an island, getting on, or off the boat, make sure you have all your stuff packed and don't forget anything on the islands, phone, towel, sunglasses,... You will almost definitely never go back! and you'll probably never get back what have left behind.

Your responsibility:

We can not be responsible for your personal items left behind, missing, lost or damaged. The best is to take care of your stuff.

NOTE : Remember that you will be traveling in remote islands. We strongly recommend you to get a travel-insurance policy which covers your personal items lost, damaged or stolen.

Transport Before & after the trip Policy

Third party transport:

Although we help you organize transportation from Cartagena to Necocli, or from Panama city to Carti, Carti to Panama City, all vans hostels, and boats are not a part of San Blas Adventures or our services. We do our best to choose the most professional,

organized and punctual providers. If some part of the trip does not go as planned, please be patient. you can call your guide with any problems during the travel.

Our trip

Remember our trip is a speed boat island hopping trip starting in Sapzurro and ending in Carti or vice versa. All transport outside of this trip is 3rd party and not part of our tour.

Why 3rd party transport is not included:

There are many reasons why we do not include transport before and after the trip.

- 1:** To give guests flexibility in their travel plans before and after the trip.
- 2:**Running our tour in this remote part of the world is a logistical monster. It's more than enough for us to run and be responsible for.
- 3:** We cannot control the transport provided. We really have minimal control over the quality of the service and the actions of the providers. They are the way they are.
- 4:** Our boat transport is run by Kuna and they have limits to where they can take their boats. That's why the tour starts in Sapzurro and not in Capurgana.

Just like before a flight your taxi is not included to the airport.

We help by giving information and helping to organize transport before and after the trip however these extra services are not part of our tour and ultimately they are your responsibility.

Not always perfect:

We do our best to work with the most professional providers available to us, however the fact is that in this part of the world even that best could be well below what you might find in a 1st world country.

On rare occasions these third party services may:

be late - unorganized - drive too fast - drive too slow - have a car that's not in the condition you're used to - be unfriendly - make you wait somewhere or pick people up you think shouldn't be in the car... Maybe even a chicken if you're lucky!

That's life in this part of the world.

Complaints about 3rd party transport:

Please do not complain about the third party transport or let it bring you or others down if your experience is not perfect. You have to understand that there is NOTHING WE CAN DO. That's why we let you know here about all the things that can happen. In saying that it doesn't mean that you'll definitely have a bad experience. 95% of the time it's fine. Obviously if something extreme happens then we want to know. However, ultimately complaints should be taken up directly with the provider in question.

Only bring good energy on our trip please!**Extra service from us & not mandatory:**

The transport we help organise before and after the trip is totally not our transport and organising it is an extra we do to help make things easy for you. You're completely welcome to organise your own transport and make your own way to the start point of our trip.

Personal belongings:

We can not be held responsible for any property loss or damage during these travel with 3rd party providers. However, in the case something does happen, we will communicate with the transport provider and do our best to assist you.

Price changes:

We do our best to keep our information up to date but 3rd party providers can change their prices from day to day. All prices are subject to last minute changes and our information may not be 100% up to date. If you see our information is not up to date please let us know.

Safety and security in Colombia?

CNN article: - There was a time when few travelers visited Colombia, when the country was synonymous with drug lords, when the only English you heard on the streets was spoken by American Marines.

That Colombia -- a country of conflict and cartels -- has largely disappeared, replaced by a rejuvenated capital of Bogota and a resilient culture that refuses to be bogged down by the dark days.

Premonitions and stereotypes should be swept aside before visiting this South American country of spectacular scenery. Today's Colombia is much more than the ugly Escobar legacy or its famed Andean coffee -- though a cup of café will most certainly reach your hands during a trip!

- Medellin is the world's most innovative city, officially
- Drug culture stereotypes are false and offensive
- Bogota must be seen from Monserrate
- Security has dramatically improved
- Cali is Salsa City
- Capurgana, Sapzurro best kept secrets villages!!
